EDUCATION

Ghana Communication Technology University 2026
Programme: Bachelor of Science, Computer Science
Academic Standing: Undergraduate · In Progress

Relevant Areas: Software Development, Algorithms, Intelligent Systems, Database Management, Distributed Systems, Web Technologies.

Sogakofe Senior High School 2023
West African Senior School Certificate (WASSCE)
Completed · Volta Region, Ghana

PROJECTS / ACHIEVEMENTS

- **Sports Scene - Automated Sports Post Generator** 2026
  Building a Next.js and TypeScript web app that turns live scores, fixtures, and news from ESPN into ready-to-post social graphics, with 14 templates, team-colour theming, auto-written captions, and platform-specific sizes for Instagram, TikTok, Facebook, and X. Includes an Autopilot that drafts posts every 10 minutes into a review queue and publishes approved ones automatically.
- **NBA Elite - Sports Showcase Website** 2026
  Built a dynamic single-page application featuring 58+ players across four eras, with real-time search, era-based filtering, and a click-to-open player modal system.
- **ShopFlow - E-Commerce & Inventory Platform** 2026
  Built a storefront with product search, category filtering, and a slide-out cart and checkout flow, paired with an inventory dashboard for adding products and tracking stock levels and status.
- **The Den - Cinema Website** 2026
  Designed and built a responsive film showcase with a full-screen video hero, an asymmetric "Now Showing" grid, genre browsing, a featured-film section, and scroll-reveal animations.
- **FaceID - Web-Based Facial Authentication** 2026
  Developed a passwordless login system where users register with a face capture and sign in through live camera verification against stored encodings, using Python, Flask, face_recognition, and SQLite.
- **Multimedia Technologies - Interactive Prototype** 2024
  Designed a full end-to-end UI/UX prototype as part of academic coursework, demonstrating user flows, component design, and interaction states in Figma.
- **Attendance & Student Registry System** 2026
  Developed a full-stack application with facial recognition-based attendance tracking, student registration, class management, and a live dashboard using Python, Flask, OpenCV, and SQLite.
- **Self-taught UI/UX Design & Figma** 2023 – Present
  Independently mastered UI/UX principles and Figma, applying skills across multiple client-style and personal web design projects.
- **Self-taught Graphic Design** 2023 – Present
  Developed proficiency in Adobe Photoshop and graphic design independently, producing branding materials and visual assets for projects and clients.

WORK EXPERIENCE

Lead Intern - Creative & Content Strategy · IBG Comms, Accra, Ghana Feb – Apr 2025

- Led a team of interns in developing creative content plans for client companies.
- Trained co-interns in UI/UX design fundamentals and practical Figma workflows, bridging design thinking with real-world execution.

Intern - Web Developer & Designer · Emperial Waste, Accra, Ghana Apr – Aug 2024

- Started by maintaining and organising company records and operational data in Microsoft Excel.
- Later tasked by Emperial Waste with designing advertising materials, flyers, and websites.
- Developed and managed the company's web presence, delivering a complete company website.

Freelance Designer & Developer · Independent 2023 – Present

- Delivered design and document work for individual clients across various briefs, including visual assets, layouts, and written documents.
- Designed promotional flyers for church teen ministry meetings, producing print-ready graphics for regular events.
- Several projects completed under NDA.

LEADERSHIP EXPERIENCE

Assistant Organizer - ACS · Ghana Communication Technology University, Accra, Ghana

2026 – Present

- Serving as Assistant Organizer of the Association of Computing Students (ACS) at GCTU.
- Supports the planning and coordination of student activities, events, and initiatives within the computing faculty.

IT President - Elective IT Department · Sogakofe Senior High School, Ghana 2023

- Elected IT President by peers during final year of high school.
- Managed and supported elective IT students, leading sessions covering IT fundamentals and introductory programming concepts.
- Helped classmates build a foundation in computing, contributing to stronger performance across the IT elective group.
